Testimonials

From the Performing Arts (selected):

Meribeth's writings and master-classes present a vivid experience of health throughout the singing process, from basic physiological principles through to the real-time relationship with the audience. There is a wholistic joy about her work that inspires performers and listeners alike....

Robin Bowman, Head of Vocal Studies, Guildhall School of Music and Drama

Meribeth Dayme is a true master teacher. She has a thorough knowledge of the human voice and an uncanny understanding of people and the way that we learn and process information. Her extensive academic credentials are balanced with a healthy dose of common sense. She is an experienced presenter, equally effective with classical voice teachers, pop vocal coaches, professional singers, amateur singers, choral directors, and public speakers. Meribeth's workshops are fun, interactive and informative. She always injects humor, creativity, and spontaneity in her presentations with a focus on practical application of knowledge and skills.

Cynthia Vaughn, co-author *The Singing Book*, Assistant Professor of Voice,

Meribeth's Masterclass at the RNCM was astounding. She taught with a simplicity and truthfulness that can only come from profound understanding. Under her expert guidance students made extraordinary, immediate and lasting transformations.

Susan Roper, Director of Vocal Studies Royal Northern College of Music, Manchester

"Meribeth has transformed my (whole) approach to singing".

Nancy Argenta, soprano, International concert artist

"To watch Meribeth (Bunch) Dayme working with singers is for teachers and students alike an inspiring experience. ... she appears to achieve near-miracles in freeing the sound".

Hazel Wood, past president AOTOS (Teachers of Singing UK)

Spanish teachers of singing called Meribeth the *Vocal Alchemist*

From Energy Healing

I found Meribeth's work calming, centering and useful. It helped me see myself in a more objective manner and she gave me wonderful insights into issues I was addressing in my life that had been troublesome. The sessions were fun, easy and I felt afterwards that the energy which came all the way across the Atlantic Ocean was just as powerful as if Meribeth had right there with me in New York City. It was wonderful.

Jeanie LoVetri, Singing Teacher, Author and Lecturer Director, The Voice Workshop, NY

Meribeth's amazing New Energy Healing Protocol for Singing and Singers is freedom.

Richard Anderson

The sessions with you, plus the "homework" have made an enormous difference in the way I respond to life. Therefore, the quality of my inner life is very different from what it was a few weeks ago. One of the most transformative instructions I've taken on board is to respond in one of three ways: with acceptance, enjoyment, or enthusiasm. The "acceptance" category--replacing panic, despair, anxiety, fear--is really big. Also, "I don't mind what happens," from the monk's story (A New Earth), and your instruction not to question what I do, have been so relevant!

Joan Melton, Professor Emeritus, Cal State Fullerton, Author

Thank you so much for the time you took with me over the last couple of weeks, I was delighted to take part and it really has made a difference to me and the way I work and it came a just the right moment for me to really benefit from the sessions. You have helped me to re-affirm my own individual identity as a singing teacher.

Janice Thompson, Teacher and JTP Trust Director, Swindon

I think I can safely say that I might well have had quite serious after effects of radiotherapy if it wasn't for you.

Caroline Brown, Singing Teacher

The things I enjoyed about it were:

- *Unhooking my mind from creating patterns that my voice was having obey*
- *Learning not to relate to my voice as if there is a potential toward a problem*
- *Noticing that I can calm my inner self which in turn gives the voice 'a break*
- *'Breaking the pattern of negative language and thereby not allowing giving way to a self-fulfilling prophecy.*
- *Noticing that just by concentrating on calming my breathing I really can calm myself*

Elizabeth Price, Singer/Actress London UK

After the first session, I could feel myself smiling and although I didn't have much time to sing, burst of sound were coming out of me. After the second session, it was similar - but being focused on my TCM work the last few years, I wished to now get out and sing again. Things, persons and events manifested and are still slowly spiraling. I'm at a new beginning.

Scarlett Anatolcy, Singer, Composer, Doctor of TCM

My three sessions over the phone with you were inspiring and healed many of the scars

from wounds of my own making. Not only am I more confident as a performer and person, but my vocal technique, breath, and alignment have changed significantly. I believe that your intuitive work helped me be more loving and forgiving in my singing. As a result my mind became more open to vulnerability which allowed me to see new possibilities I was preventing myself from attaining.

Many opportunities have opened as a result...

Aaron Ferguson. Tenor, Canada

From The Alchemy Programme for Executives

“Meribeth has carried out training on both an individual and group basis for Skandia, and without exception everyone has agreed it was the most beneficial training they have experienced to help them improve as a presenter.”

John Litchfield, Skandia UK

“I am very grateful to you for helping me to overcome my fears and start to actually enjoy presenting.

Thank you for caring about the 'whole' me too, as I now understand that all aspects of the person contribute to well being and self- confidence”.

Sandra Postles, HR Director, National Savings and Insurance UK

“Meribeth knows what whole person coaching really means -mind, body and beliefs. Leadership coaches

typically lack the ability to work with the body and so miss opportunities to build confidence and personal

power...”

Andy Binns, Head of Leadership Development, BT Group
